

Extended Saturday works for the Northern Road upgrade between Mersey Road and Eaton Road

I (first and last name) _____

Of (address) _____

Am aware that the Georgiou Ertech Joint Venture (GEJV) intends to extend its working hours on occasional Saturdays throughout construction of The Northern Road upgrade between Mersey Road and Eaton Road. Normal Saturday construction hours are 8am to 1pm - GEJV intends to extend this to 4pm on occasional Saturdays. GEJV will use this extra time in case of poor weather or other unforeseen events during the working week.

It has been explained to me and I understand these works will consist of:

- Heavy machinery including scrapers, dozers and graders
- Drainage works

Works will occur between 12th October and 29th March.

These works will allow GEJV to complete bulk earthworks and the overall project faster and more efficiently.

As a resident you will be exposed to decibel levels between 5 and 10 Decibels which will be noticeable.

Normal community consultation will take place as usual.

I understand if I have any questions relating to the construction, I can contact the Georgiou Ertech Joint Venture (GEJV) team on 0438 654 860 and email thenorthernroad@rms.nsw.gov.au.
