

## QUALITY

Georgiou delivers major infrastructure and building projects to government and private clients. As a company, Georgiou acknowledges the trust its stakeholders place in them to meet their requirements aligning with Georgiou's vision to be the *'best people to work with'*.

In order to achieve this vision, Georgiou will:

- establish and maintain a Quality Management System based on AS/NZS ISO 9001 that is supported by technology, is lean, effective and seeks continuous improvement;
- establish objectives and targets to measure performance and identify opportunities for improvement;
- plan and monitor its work to deliver quality outcomes that meet legal, contractual and stakeholder requirements;
- ensure employees and those who work on Georgiou projects hold the required level of knowledge to undertake their duties;
- develop a culture which supports reporting, analysis and distribution of quality critical information; and
- provide the resources needed to implement and maintain the Quality Management System and continually improve its effectiveness.

All employees, and persons who work with Georgiou, have a personal responsibility for implementing this Policy.
